Big Suamico Harbor, WI

Harbor Features

- Located off the Big Suamico River, which flows east into Green Bay, an arm of Lake Michigan.
- Authorized: River & Harbor Act of 1937.
- Shallow Draft recreational harbor.
- Project depth – 8 feet.
- Approximately 3,700 feet of maintained Federal channel.
- Dredged material is placed along the beach as beach nourishment.
- Major stakeholders include Native American fishing interests, and various marina owners.

Project Needs

- Requires periodic maintenance dredging on a 5 to 7 year cycle of approximately 20,000 to 30,000 cubic yards.

Consequences of Not Maintaining the Project

- Loss of jobs locally.
- Loss of recreational and charter fishing in the area.

Transportation Importance

- This project serves as an important Harbor of Refuge as well as charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
